SHAHAD FAISAL ALGHAMDI

Jeddah, Saudi Arabia | +966 533 762 672 | shahadfaisal00@gmail.com | LinkedIn | GitHub

Professional Summary

Software Engineering graduate with a GPA of 4.83/5 and hands-on experience in application development, database integration, and software testing. Trained at Bank AlJazira, with practical experience in Python, Flutter, Supabase, and enterprise IT systems.

Education

Bachelor's degree in software engineering | 2026
University of Jeddah – Jeddah, Saudi Arabia
GPA: 4.83 / 5

Experience

- **Summer Training - Bank AL Jazira (Jun - Aug 2025)**
  - Completed an intensive 8-week training program across the IT and Development departments.
  - Configured entities and business rules in Microsoft Dynamics 365 CRM; explored JavaScript-based functionality.
  - Built business process workflows with IBM Business Automation Workflow (BAW), including role-based forms and approvals.
  - Executed software test cases and participated in testing and enterprise application activities.

Certifications & Training

- Artificial Intelligence Fundamentals – IBM SkillsBuild (2026)
- UX/UI – Satr, Tuwaiq Academy (2026)
- Build Native Mobile Apps with Flutter – Udacity (2025)
- Overview of IoT Technologies – Huawei CRA Training Program (2024)

Skills

- **Technical Skills**
  - **Programming Languages**: Python, Java, JavaScript, Dart
  - **Mobile & Frontend**: Flutter, HTML, CSS
  - **Backend & Database**: MySQL, Firebase, MongoDB, Supabase, Node.js, Express.js
  - **Data Processing**: Data Cleaning, Image Preprocessing
  - **Tools & Technologies**: Git, GitHub, JUnit, Figma
- **Soft Skills**
  Adaptability, Problem-Solving, Creativity, Leadership, Teamwork, Time Management, Collaboration, Research & Analytical Skills

Projects

- **Taabat – Graduation Project**
  - Developed Python scripts for image dataset cleaning and preprocessing to support AI-based fruit classification.
  - Designed and implemented frontend screens using Flutter.
  - Built and integrated the Supabase database with the application.
- **kidCoin – Budget Management App**
  - Developed frontend interfaces and contributed to backend functionality using Flutter.
- **FurTails – Pet Care Website**
  - Developed frontend pages and integrated APIs to support website functionality.
- **Trackify – Mobile Application**
  - Developed application interfaces, integrated Firebase, and implemented Google API integration.
- **VitaFit – Health & Lifestyle App**
  - Designed UI prototypes using Figma and contributed to requirements analysis and the Architecture Specification Report (ASR).

Hackathons

- **Raqeem – Heritage Innovation Hackathon (Jun 2026) | 2nd Place**
  - Designed an AI-powered heritage platform concept and conducted market and competitor analysis.
- **Global OSH Hackathon – MindTalker (Feb–Mar 2025)**
  - Proposed an AI-powered assistant prototype to improve workplace communication in high-stress situations.
- **Launchpad Bootcamp Hackathon – Baseer (Sep 2024) | Top 15**
  - Designed a smart security solution using AI for identity verification and remote access.
